

EXCELLENT HEXAGON WRENCHES SINCE1958

HEXAGON BIT

Exceptional Quality IMPACT BIT from the premium Hex and TORX® wrench manufacturer, EIGHT TOOL.

TORX® BIT

HEXAGON BIT

EIGHT 6

Hex Bits are available in two groove positions: 9mm(610C/610) and 13mm(620C/620).

EIGHT Made in Japan 6

EXTRA VISIBILITY / COLOR

it easy to select the right size, enhancing work efficiency

EXCELLENT MACHINING / TORSION ZONE

The torsion zone, with its advanced design, absorbs shocks from impact and power tools, protecting both the bit and screws from damage.

EXCEPTIONAL DURABILITY & ABRASION RESISTANCE

A special alloy steel is used to achieve high durability against impacts and torque while also providing excellent abrasion resistance.

Special steel material:

High durability and abrasion resistance

IMPACT-GUARD ALLOY

13mm

X® BIT

EIGHT T20

9mm

EIGHT Made in Japan T20

Torx® bits feature grooves at both 9mm and 13mm positions(310C/310).
